Safety Notice:

- 1 Please cut off the power supply at the fuse or circuit breaker before installing the light fixture or making any electrical connection. Before turning on the power, ensure the wires are connected correctly.
- 2 We recommended that a qualified electrician performs all wiring connections. All electrical connections must comply with all national and local electrical codes.
- 3 The light comes with ground wire. It is necessary to connect it while installation and maintenance to avoid danger.
- 4 Do not install the light in wet areas such as bathrooms. It is only for indoor use.
- 5 When the light appears abnormal phenomenon, please cut off the power immediately and entrust the electrician to service.
- 6 Do not use diluent, gasoline, and other corrosive liquid, or it will cause discoloration or damage. When you need to clean the light cover, please wipe it with a soft cloth which should be dipped in soapy water and dried, then wipe it again with a dry cloth.
- 7 Do not attempt to change the light source. Replace it with a new light when the light source expires.
- 8 If there is any quality problem, please do not hesitate to contact our after-sales service team.

Easy Installation
